CANADORECOLLEGE.CA 5
I’m 100% certain of that, because I benefited from a Canadore education along with my 44,000 fellow alumni. Like you, I was weighing my options and searching for the right college to attend. And, like the more than 4,500 students who choose Canadore each year, I made the right choice.

Now it’s your turn to explore Canadore. Flip through this guide and check out canadorecollege.ca to browse through our program offerings, learn about the services to support your success and our many extra-curricular and sports activities. You’ll see we have lots to offer.

But the best part of Canadore is the way you’ll feel when you get here – it’s a student experience like no other. Come and take a campus tour and you’ll discover it for yourself.

At Canadore, we work closely with you to help get you to where you want to be. We work closely with business and industry to develop programs that will lead to career opportunities. We work closely with universities to develop pathways that lead to degrees.

At Canadore, we make great things happen. It’s what we pride ourselves on – it’s what we’ve always done right, and what we will continue to do right.

I look forward to welcoming you at Canadore College.

Welcome, Parents!

As parents, you are sure to have many questions regarding the College and your child’s education. Visit us online to find answers to any questions that may arise. You may also sign up at myCanadore.ca to access even more information.

On our website you will find information about:
- Residences
- Health Services
- Admissions
- Student Success Services
- Scholarships and Bursaries
- Employer Services
- Financial Aid

Welcome to Canadore College! Great Things Happen Here is more than a slogan – it is our promise to you.

Welcome to Canadore College! Great Things Happen Here is more than a slogan – it is our promise to you.
In the City of North Bay, you can enjoy good restaurants, movies, shopping, live theatre, community festivals and events, and a vibrant nightlife. Whether you feel like a night out dancing, listening to live music, or just sitting in a pub playing pool and relaxing, the City has what you are looking for.

Closer Than You Think
North Bay is approximately three hours’ driving distance from Toronto and Ottawa.

Getting Around
The City of North Bay provides regularly-scheduled bus service to our three local campuses, and all full-time students receive a bus pass for travel from September through April, the cost of which is included in your tuition. cityofnorthbay.ca

Outdoor Activity
Our countless lakes, rivers, forests, canoe routes and trail systems provide endless outdoor activity including: fishing, camping, swimming, hiking, biking, canoeing, kayaking, and a variety of other sports. The City is nestled between two beautiful lakes, Lake Nipissing and Trout Lake, presenting limitless water recreation opportunities. We also have a ski hill and a number of golf courses, parks, baseball diamonds and soccer fields throughout the City. And, for the avid jogger, cyclist or in-line skater, the Kate Pace Way and the Kinsmen Trail combine to offer 28 km of multi-use paved trails stretching from one end of the City to the other.
Supportive Learning

At Canadore, we care that you succeed. We focus on 360 degree student development. From finances to family life, we have supports in place to help you every step of the way.

Affordable Education
Don’t think you can afford a college education? Think again! Canadore College has an extensive financial assistance program offered to both full-time and part-time students, with approximately $1.7 million in scholarships and bursaries being awarded annually. Visit us online for more information and to use our budget calculator! canadorecollege.ca/money

Scholarships, Bursaries and Awards
Canadore has many scholarships, bursaries and awards available, based on merit, financial need, and emergency funding.

Entrance Scholarships are open to all first year students who are residents of Ontario and are currently enrolled in a full-time program at any of Canadore College’s campuses.

Bursaries are awarded on the basis of financial need and/or satisfactory academic progress. To be considered for a bursary, eligible students must submit a detailed “Online Bursary Application”.

Scholarships are awarded based on a combination of academic excellence, attendance, and overall contribution to the classroom.

External organizations also provide assistance to our students. Students are encouraged to apply for these external awards, scholarships and/or bursaries. Application procedures and deadlines are specific to each one of these awards.

OSAP Ontario Student Assistance Program
Students eligible for OSAP assistance should refer to osap.gov.on.ca in order to complete an application form. Financial assistance is provided to students through the provincial and federal governments for residents of Ontario.

Campus Employment for Students
Students have the opportunity to find employment on campus throughout the school year and over the summer.

HigherEd Points
You may be eligible to redeem loyalty points toward payment of your Canadore tuition. Check out higheredpoints.com

Canadore Financial Aid Resources
- OSAP
- Bursaries
- Discretionary bursaries
- Emergency loans
- Scholarships
- Entrance scholarships
- Student employment opportunities

Contact Us
Students with questions about OSAP and Financial Aid may inquire by contacting us at 705.474.7600 ext. 5123 or finaid@canadorecollege.ca
Accessible Campuses

All of our campus facilities are fully accessible.

- Designated parking for physically disabled persons
- Electronic doors
- Elevators
- Specifically equipped fountains and washrooms
- Public telephones adapted for hearing impaired persons and a TDD system
- Fully accessible units in residence

Student Success Services

We provide support for students who require changes to their physical environment, assistive devices, learning aids and alternative program delivery. Self-identification of your disability is voluntary and treated confidentially. Students wishing to self-identify may do so by contacting our Student Success Office at 705.474.7600 ext. 5205.

Student Life Navigator Services

We offer comprehensive, student-focused services designed to help you succeed. Staff navigators provide support in the following areas:

- Career guidance and learning strategies
- Crown ward
- Mental health and wellness
- Crisis and personal support
- Relationship building

On-Campus Support Services

- Student intervention specialist
- Individualized guidance, consulting and support
- Peer tutoring, academic supports
- Media resources
- Open access computer labs
- Student success resource centre
- 24 hour Wellness Centre and Crisis Hotline
- First Generation
- Emergency food bank
- Summer transition program
- Co-curricular program
- Mental health triage nurse

Office of Inclusion and Diversity

We welcome and support all individuals no matter their religion, race, level of ability or sexual orientation. As part of the College’s commitment to graduate employable, well-rounded, world leaders, the Office works to enhance students’ personal, academic, and social development as they transition in, through, and beyond their postsecondary careers.

Employer Services

Canadore builds relationships with industry to connect our graduates to meaningful employment related to their credentials. Programming includes providing employment on campus, tailoring individual education plans, sourcing industry job leads, employer recruiting, and creating networking and mentoring opportunities.

Learning Library

The Harris Learning Library is one of the largest libraries in Ontario’s college system. It has friendly and helpful staff and provides access to learning and research materials from every library in the region through the PALS library sharing service. The library features individual and group study work spaces, wireless Internet, electronic loan program, and self-service printing and copying seven days a week.
Life on campus

Diversity canadorecollege.ca/international
Students come to Canadore from as far away as Brazil, China, India, Malaysia, El Salvador and Africa. We strive to make the transition for our international students an easy one by providing orientation and transportation upon arrival, and assisting with finding accommodation. Canadore offers students from around the world the unique opportunity to experience a culture that is truly Canadian.

Health Centre
The Campus Health Centre provides students with convenient access to a wide array of medical services including: semi-urgent care, primary care, sexual health, immunizations, health promotion and disease prevention. We have a physician, a nurse and medical laboratory services on site!

Food on Campus dineoncampus.ca
There are several food options on campus. Prepare meals in your fully-equipped residence kitchen or choose from one of the on-campus options like the cafeteria, vending machines or food court that includes Tim Hortons and Subway. Meal plans are available.

Campus Shop efollett.com
All of your supply needs can be taken care of with one stop at the Campus Shop. Traditional books, textbook rentals, stationery, software, hardware, gifts, clothing and accessories are available year-round. We offer online books, textbook rentals, eTexts, and book borrowing.

Canadore Students’ Council
The CSC is made up of representatives from the student body. The Council’s goal is to develop and deliver cohesive on-campus programming that encourages cultural, educational, social and athletic leadership, to improve the quality of life for all students at Canadore College.

Light Therapy Lounge
Our unique Light Therapy Lounge, equipped with specialty daylight spectrum lighting and lamps, is designed to help combat health challenges like seasonal affective disorder, general lack of energy, depression and insomnia, all of which have been associated with a lack of natural light.
We are one of the only college residences in Ontario to offer full kitchens.

Residence is a great way to meet new people and make lifelong friends. Canadore offers the newest residences in Ontario. We have three apartment-style residences that accommodate 675 students located at the bottom of College Drive. Our secure complexes are wheelchair accessible.

All residences provide single rooms allowing you to have your very own space. Each residence offers: a full kitchen, telephone, mail service, Internet access, and access to transportation and laundry facilities. Hydro is included.

Apply with deposit by May 1, 2018 for guaranteed residence. All first-year students are guaranteed a spot!

Living Learning Communities

Living Learning Communities are designed to support student success in Residence through increased academic support, focused programming, and events centred around your interests and needs. Programs can include academic counselling, exam review sessions and opportunities to interact with professors and strengthen communication.

Safe Campuses

Our campuses are set in a safe and friendly community atmosphere and offer on-site security, 24-hour video surveillance, and safety initiatives including a Campus Walk program and emergency telephones.
Life on campus

First Peoples’ Centre
canadorecollege.ca/FPC

At Canadore many Nations are represented including Ojibway, OjiCree, Cree, Algonquin, Métis, Mohawk, and Inuit. We welcome approximately 350 Aboriginal students annually from across the country.

Many services are available for our First Nation, Métis and Inuit students including personal and academic counselling, advocacy, elders’ programs, mentorship and peer tutoring. Our goal is to offer cultural relevancy within postsecondary programming to increase student and graduate opportunities. We are proud to offer culturally relevant programs. Our Indigenous Preparatory Studies, Indigenous Pre-Health and Indigenous Wellness and Addictions Prevention programs are unique to the province.

Come visit us at the First Peoples’ Centre Student Lounge!
Athletics, Recreation and Wellness
canadorecollege.ca/athletics

We can help make sport, fitness, wellness and fun fit into your schedule. Diverse quality recreation programs, varsity and club teams, and wellness programs are available at our Aviation, College Drive and Commerce Court campuses. We are also proud members of the Ontario Colleges Athletic Association (OCAA), the provincial organization for college varsity sports. Your annual athletic fee means that many of the programs offered are at no extra cost. Participating in sports and recreation events will allow you to expand your circle of friends, keep active and try some new and exciting experiences.

Our Facilities

Canadore College offers many different recreational facilities specific to each of its campuses: Aviation – Fitness room with drop-in activities available. Commerce Court – A large weight room and gymnasium with drop-in activities available. College Drive – The Education Centre Gymnasium and a new fitness centre.

Computer Systems – Networking

Technician
Two Years - Ontario College Diploma

Technology
Three Years - Ontario College Advanced Diploma

Your Experience: Work placement opportunity.
Network technologies are used in every modern communication tool from computers to mobile phones, automobiles to home appliances. Train for this dynamic and in-demand field and learn to develop, maintain and support these networks. Learn all aspects of networking and prepare for a career in this dynamic and ever-changing industry.

This program is offered in partnership with Seneca College.

Your Future Career
- Network administrator
- Network designer
- Security specialist
- Computer technician
- Support specialist

What You Learn: 2 yrs
- Network design, implementation, and maintenance
- Routing and switching networks
- Wired and wireless networking
- Network troubleshooting
- Server operations
- Operating systems (client and server)

What You Learn: 3 yrs
- Work placement
- Exchange server networking
- Multi-layer switching
Health Care Administration
One Year - Ontario College Graduate Certificate

Your Experience: Complete a capstone project and research a current problem facing the health care system.

Prepare for a leadership role in a variety of health care settings and learn all aspects of health care operations and concepts as they relate to a multi-disciplinary team. This one year program will prepare you to be responsive to different cultures and behaviours in a number of situations and environments.

Your Future Career
• Health care manager
• Program manager
• Program director
• Clinical records manager
• Unit manager

What You Learn
• Leadership
• Health care operations
• Critical thinking and problem solving
• Financial practices
• Human resources
• Law and ethics

Canadore has been a leader in aviation training for over 45 years. Our Aviation Campus is home to top of the line, industry-standard training tools, aircraft, and dedicated faculty and staff. The 90,000 sq. ft. training facility is ideally located at North Bay’s Jack Garland Airport and its 10,000 foot runway (the longest north of Toronto).

The hangar, the campus highlight, boasting 17,000 sq. ft. of prime training space, is filled to capacity with fixed and rotary wing aircraft for students to work hands-on.

The Non-Destructive Testing Centre is a recent expansion to the campus and supports innovative technologies, applied research, materials testing opportunities and customized training programs.

The skills and training Canadore students receive set them up for stellar careers in the aviation industry across Canada and around the world.

over 40,000 sq. ft. of premium aviation lab training space
Aviation Fundamentals
One Year - Ontario College Certificate

Your Experience: Train on real aircraft.
Obtain the knowledge and skills you need to begin your career in Aviation. Learn basic techniques and standard practices used in the industry. Strengthen your math, science and technical skills and acquire the prerequisites necessary to gain entry into one of Canadore’s full-time aviation programs. This program is the first of its kind in Ontario.

What You Learn
- Health and safety for aviation
- Introduction to aviation
- Basic tools and hand skills
- Basic electricity
- Pre-aviation math
- Physics

Dallas Smith  
Manager, Line Maintenance  
Porter Airlines

Aviation Technician – Avionics Maintenance Graduate, 2002

“It was the first few steps at Canadore, teaching not only the technical portion of aircraft maintenance, but also instilling the values of what it means to be an Aircraft Maintenance Engineer, and supporting their students to ensure success in this industry, that has led me down this very satisfying and exciting career path.”

AVIATION TECHNICIAN

Aircraft Maintenance
Two Years - Ontario College Diploma

Your Experience: Learn from professors with real work experience.
Train hands-on on actual aircraft! The aviation industry is growing, and skilled professionals are in high demand. Learn to troubleshoot vital aircraft components and systems, including piston and turbine engines, electrical systems, hydraulics, and navigation and communication systems. Study the challenging complexities of fixed and rotary wing aircraft while gaining the theoretical knowledge you need for apprenticeship employment. The program is approved by Transport Canada.

Note: Graduates receive 18 months of accreditation towards a Transport Canada-issued Aircraft Maintenance Engineer’s Licence, Category M. Class attendance is mandatory.

Your Future Career
• Aircraft maintenance
• Aircraft manufacturing
• Component overhaul

What You Learn
• Aerodynamics for fixed wing and rotary wing aircraft
• Gas turbine and reciprocating engines
• Maintenance, repair and troubleshooting
• Aircraft handling and taxing
• Power and drive train component maintenance
• Sheet metal structures and repairs
• Composite structures and repairs
• Communication and navigation systems
• Electrical systems

AVIATION TECHNOLOGY

Aircraft Maintenance and Avionics
Three Years - Ontario College Advanced Diploma

Your Experience: Receive theoretical and practical training on fixed and rotary wing aircraft.

The aviation industry is growing and skilled professionals are in high demand. Learn all of the complexities of aircraft maintenance with an advanced specialization in avionics in this multidisciplinary program. Receive theoretical and practical training on components and systems including the engine, hydraulics and landing gear. Intensive avionics training in the third year includes learning to install and configure aeronautical sub-systems and components contained within aircraft structural, mechanical, electrical, hydraulic, communication, navigation, surveillance and flight guidance systems.

Your Future Career
- Senior maintenance management positions
- Aircraft mechanic/inspector
- Aircraft instrument, electrical and avionics mechanics, technicians and inspectors
- Aircraft servicing, repair and maintenance
- Aircraft manufacturing
- Component overhaul

What You Learn
- Flight management systems
- Navigation and communication systems
- Aircraft instrumentation
- Avionics systems
- Aerodynamics
- Aircraft hydraulic systems
- Gas turbine and reciprocating aircraft engines
- Sheet metal and composite structures and repairs
- Aircraft handling, ground running and taxiing

Note I: These programs have been designed to enable students to enhance their education and build upon their aircraft maintenance skills with an additional specification in Avionics or Structures. The first two years of the program are common with the Aviation Technician – Aircraft Maintenance program. Transfer opportunities exist for graduates of a Transport Canada accredited School who have met the applicable requirements of STD566.10.

Note II: Successful completion of these programs will result in 24 months accreditation toward an Aircraft Maintenance Engineer (AME) Category M Licence. These are the first programs of their kind in Ontario and first in Canada to be eligible for the full 24-month accreditation granted by Transport Canada. Class attendance is mandatory.
For more than 45 years, Canadore has been recognized domestically and internationally as one of Canada’s premier aviation and technical institutes.
Commercial Fixed Wing Pilot
Two Years

Your Experience: Receive winter survival training.
This two-year program, delivered in partnership with Essential Helicopters, will provide you with the knowledge and skills required to become a Commercial Fixed Wing Pilot. Learn in the classroom and through hands-on practical labs and flight training, and develop the required skills to complete the Transport Canada Commercial Pilot Licence written examination and practical flight test.

Skilled pilots with a strong background in practical knowledge are in demand. This program was designed in consultation with industry leaders in the aviation industry. The specified training will provide you with a solid foundation in aviation practices, allowing you to obtain work in a variety of positions in the aviation industry. Our graduates find employment in Canada and across the globe.

Note I: Graduates will receive a Transport Canada Commercial Fixed Wing Licence and ratings of their choice. Ratings can include Night, Multi Engine, Float, and Instructor Rating. Graduates will also receive a Canadore College Professional Pilot Preparedness Certificate and numerous industry-recognised operational certificates.

Note II: Minimum intake required to run program. Essential Helicopters holds the right to cancel this program at any time.

Your Future Career
- Commercial pilot
- Charter pilot
- Bush pilot
- Air ambulance pilot

What You Learn
- Flight training to Transport Canada requirements
- Ground School to Transport Canada requirements
- Navigation and meteorology
- Airframes, engines and systems
- Basic maintenance
- Underwater egress
- Winter survival
- Chainsaw safety

First Peoples’ Aviation Technology – Flight
Three Years - Ontario College Advanced Diploma

Your Experience: Receive hands-on flight training.

Become a qualified, professional pilot in a unique learning environment. This program is the only Indigenous postsecondary program of its kind in Canada. The First Nations Technical Institute (FNTI) Aviation Diploma program is offered in partnership with Canadore College. The curriculum meets the Ontario Ministry of Education and Training requirements for postsecondary studies as well as Transport Canada regulations and standards for flight training.

Training takes place at the Tyendinaga Aerodrome – a one-of-a-kind facility including hangars, classrooms, student residence and a gym.

Note: Graduates will hold a commercial licence with their rating of choice and will also meet the eligibility criteria to obtain a Flight Dispatcher designation and a Two-Crew & Cruise Relief Pilot (IATRA) certification.

Your Future Career
- Commercial pilot
- Charter/bush pilot
- Flight dispatcher
- Air traffic control
- Airport manager

What You Learn
- Flight training
- Navigation
- Radio operation
- Flight and simulator training
- Private and commercial pilot licence requirements

**Marykate Bellemare**
*Senior Wildlife Technician, Ministry of Natural Resources*

Environmental Protection and Compliance Technician Graduate 2013

“The Environmental Technician program helps students prepare for the real working world. From GPS navigation, to practical laboratory skills, and plant identification, we were taught all the skills that are needed for this field. Each day of work I can directly relate to what I learned in school; staying organized, report writing and preparation, project planning, GIS mapping skills, and GPS navigation are all used on a daily basis.”
With Canada’s aging population, the need for skilled health sector professionals is greater than ever. Shortages are evident in this country and around the globe. The need for workers in this vital job sector has created ample opportunity for those wanting to start a rewarding career.

The College has a wide range of health, human care and wellness programs that focus on the entire body – mental and physical. The approach to this critical health-related training is practical. Students learn hands-on in our innovative labs from highly skilled faculty. Training includes one-on-one learning paired with real-world clinic and placement opportunities.
Dental Hygiene
Three Years - Ontario College Advanced Diploma

Your Experience: Work with real clients in Canadore’s Dental Clinic.
Develop the knowledge, skills, and judgement needed to become a self-regulated health professional. A large part of your training will include hands-on clinical practice. Students work with clients from the community on-site in Canadore’s Dental Hygiene Clinic, where they offer free dental hygiene services as they put their clinical theory into practice. Graduates are in high demand, finding employment in dental offices, hospitals, and research institutes. This program is accredited by the Commission on Dental Accreditation of Canada.

Note: Graduates of this program are eligible to write the National Dental Hygiene Certification examination. For more information visit www.ndhcb.ca.

Kara Hishon
Dental Hygienist,

COLLABORATIVE NURSING
Bachelor of Science in Nursing
Four Years - BScN

Your Experience: Learn nursing theory and practice, including eight clinical practicums.

This integrated, collaborative nursing program leads to a BScN awarded by Canadore’s partnering institution, Nipissing University. This training will prepare you to meet the present and future needs of health care. Graduates will be eligible to write the nurse registration examination, and upon successful completion, can apply for registration with the College of Nurses of Ontario and will be able to practice as beginning professionals in a variety of clinical settings. This program offers students an innovative way of learning that incorporates the best of both college and university learning experiences.

Note: Students must apply to Nipissing University through the Ontario Universities’ Application Centre (www.ouac.on.ca). Inquiries may also be directed to the Nipissing University Admissions Office at 705.474.3450 ext. 4761.

Your Future Career
• Hospitals
• Clinics
• Long-term care facilities
• Public health
• Home nursing

What You Learn
• Nursing theory and practice
• Human anatomy and physiology
• Microbiology, molecular and cell biology
• Nursing in specialized settings
• Pharmacology
• Developmental psychology

We have offered
- Pathways to Employment in Mining
- Pre-Apprenticeship in Carpentry
- Entrepreneurship Training
- Food Service Worker Program
- Personal Support Worker Certificate
- Customized Short Programs:
  - Pre-Construction Worker
  - Solar Panel Installation
  - Office Worker Skills
Indigenous Wellness and Addictions Prevention
Two Years - Ontario College Diploma

Your Experience: Program-led culture camps.
Gain the skills and knowledge you need for employment in a variety of addiction settings through practical, hands-on learning. The curriculum is based on the holistic teachings of the Medicine Wheel, with a focus on the root causes of addiction within Indigenous communities. You will learn both cultural and mainstream approaches to addictions counselling. Training ranges from pharmacology to traditional methods including Sacred Circles, Teaching/Learning Circles, and the use of the four sacred medicines – tobacco, cedar, sage, and sweet grass.

Flexible Exit Options: Exit with a College Certificate after one year or exit with an Ontario College Diploma after two years.
There is a placement component in this program.

Your Future Career
- Traditional medicine
- Alcohol and drug treatment units
- Family resource centres
- Young offender residential centres

What You Learn
- Traditional healing, learning, and teaching
- Culture specific helping
- Challenges facing Native communities
- Interviewing, reporting, and documenting
- Addictions counselling skills
- Relapse preventions
- Multiculturalism
- Psychology and sociology

Academic Upgrading

Flexible with *Free Tuition!

Offered in North Bay and Parry Sound

Upgrade your knowledge and skills to prepare for college, apprenticeship, and/or employment, whether or not you have a high school diploma. This flexible training is tailored to suit your educational and/or employment goals. You can attend these programs on a full- or part-time basis to suit your busy schedule.

*Academic Upgrading is tuition-free to residents of Ontario who are at least 19 years of age. Financial support for childcare and transportation is available to qualified applicants.

Academic and Career Entrance Program (ACE) allows you to upgrade your academic skills and prepares you for further education. Studies may include communication, mathematics, biology and chemistry. Successful completion of the ACE Program provides a Grade 12 equivalence that is recognized for admission to college postsecondary programs and apprenticeship training in Ontario.

Literacy and Basic Skills (LBS) provides upgrading in communication, mathematics, introductory computer applications and workplace essential skills. This program will help to improve your employment prospects, and will prepare you for further training. Many students who successfully complete this program proceed directly into the ACE Program.

Recreation Programs – Fast Track

College and university graduates are eligible to fast-track any of Canadore’s three recreation-related diploma programs: Recreation and Leisure Services, Recreation Therapy and Strength and Sport Conditioning. Applicants receive a one-year block transfer and can complete the diploma in as little as one year.

Visit us online for more information.
Strength and Sport Conditioning
Two Years - Ontario College Diploma

Your Experience: Complete 400 hours of practical applied work experience.

There is an increasing need for certified professionals in strength and sport conditioning. This specialized program, designed for individuals who have an interest in sports and fitness, will teach you the skills and techniques needed to help athletes or sports teams reach their maximum physical potential. Strength and sport conditioning is athletic training aimed at greater strength, power, speed, agility, coordination and balance. You will learn general exercise principles, nutrition, and sport-specific science, along with practical advanced training in weightlifting, agility, plyometrics, balance, and sprint training for athletes.

Dual Diploma Option! Canadore graduates of this program are eligible to transfer directly into the second year of the Recreation and Leisure Services or Recreation Therapy programs.

Study Abroad: Study in Ireland at the Limerick Institute of Technology as part of an exchange or graduate pathway. For more details, visit canadorecollege.ca/transferguide

Sue Weltz
Recreation Activation Specialist,
Sumac Lodge, Sarnia, ON

Recreation Therapy Graduate 2014

“The online diploma program allowed me to return to college after being out of school for many years. It was a difficult decision, as I was raising a family and working full time. The online classes were very educational and prepared me to work in the field of recreation. I was also given the opportunity of a lifetime, travelling to Guiyang, China for two months to study and build relationships with the country’s students and faculty. Attending Canadore’s Recreation Therapy program was the most rewarding part of my educational career and I owe so much gratitude to my professors. I am now doing what I am passionate about and love. Thank you Canadore!”

Motive Power Technician
40 Weeks - Ontario College Diploma

Your Experience: Small classes and industry relevant professors.

Become skilled in motive power by training with industry-standard tools, diagnostic equipment, and lifts. You will learn to operate, diagnose and service all types of vehicles, from standard automobiles to industrial heavy-duty equipment, and have the opportunity to work on the latest technology by way of vehicle donations. You will perform actual service procedures on a wide variety of components found in the power train of heavy vehicles, install and set up clutches, and tear down and assess the condition of manual transmissions.

Note: Successful completion is equivalent to Levels 1 and 2 Apprenticeship in-class portion.

Your Future Career
• Automotive service technician
• Truck and coach technician
• Heavy equipment technician
• Parts technician
• New vehicle sales and leasing

What You Learn
• Gasoline and diesel engine operation
• Fuel delivery systems
• Electrical systems and engine controls
• Steering, suspension and brakes
• Hydraulic and air brake systems
• Hybrid systems

MECHANICAL TECHNICIAN
Machinist
42 Weeks - Ontario College Diploma

Your Experience: Learn to produce custom parts for any type of vehicle or machinery.

Take control of your future by training in this highly in-demand career field. You will be taught by our industry-trained faculty and staff in our 8,000 sq. ft. lab. Students receive extensive training on manual machines as well as automated Computer Numerical Control (CNC) machining equipment and gain skills to produce custom parts for virtually any type of vehicle or machinery. Mechanical technicians are sought after in a number of industries including automotive, mining, forestry and aviation, to name a few.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Flexible Exit Option: Receive a Mechanical Techniques Ontario College Certificate after 21 weeks.

Your Future Career
• Machinist
• Tool and die maker
• Mould and die maker
• CNC machinist
• CNC programmer
• Jobber shop machinist

What You Learn
• CNC machining and programming
• Operation of precision tools
• Blueprint reading and interpretation
• Technical mathematics
• Workshop technology theory and practice

Mechanical Engineering

Technician
Two Years - Ontario College Diploma

Technology
Three Years - Ontario College Advanced Diploma

Your Experience: Train with 2D and 3D modeling software.
Become skilled in this in-demand and important field. Learn to design, develop and maintain machine components, tools, heating and ventilation systems, power generation and manufacturing plants and equipment, and much more. Mechanical engineering technicians and technologists are sought after in a number of industries including mining, manufacturing, and forestry.

Your Future Career
- Consulting engineering firms
- Manufacturing and processing companies
- Government agencies

What You Learn: 2 yrs
- Computer Aided Design – 3D design
- Electrical/electronic fundamentals
- Fluid mechanics
- Manufacturing processes
- Strength of materials
- HVAC

What You Learn: 3 yrs
- Solid modelling
- Thermodynamics
- Metallurgy
- Pneumatics, hydraulics and automation
- Machine design

MECHANICAL TECHNIQUES
Plumbing
28 Weeks - Ontario College Certificate

Your Experience: Train hands-on in a simulated lab.
Get the skills you need in Canadore’s combined 1,800 sq. ft. plumbing labs, which are set up to simulate multi-levels of an actual residence and equipped with industry-specific tools. Individually and in teams, students have the opportunity to build residential and commercial plumbing systems, install fixtures and test all systems. You will gain a variety of trade-specific skills, including installing, maintaining and repairing piping systems, soldering, and heating and hot water systems.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Your Future Career
- Building maintenance
- Construction
- Industrial firms
- Residential plumbing

What You Learn
- Plumbing theory and practice
- Trades calculations
- Trade specific materials and tools
- Installation
- Personal finance
- Blueprint reading
- Ontario Plumbing Code

Find out what you need to get in. See page 88.
MECHANICAL TECHNICIAN

Welder-Fitter
42 Weeks - Ontario College Diploma

Your Experience: Learn multiple welding processes and prepare for CWB exams.

Skilled welders are highly sought-after and well paid. Learn the specialized skills of the trade on industry-standard machines in our 4,700 sq. ft. lab. You will learn multiple welding processes at one of the 33 individual welding stations, including shield metal arc welding (SMAW), Flux Cored Arc Welding (FCAW), gas metal arc and gas tungsten arc welding, FUSION welding, brazing, and cutting techniques. Skills learned are highly transferable and versatile as welding is used in several trades including electrical and automotive. Graduates will have completed all position welding training and possible Canadian Welding Bureau Certification.

Flexible Exit Option: Receive a Welder-Fitter Mechanical Techniques Ontario College Certificate after 23 weeks.

Note: Successful completion is equivalent to Level 1 Apprenticeship in-class portion.

Your Future Career
- Welding fabrication
- Repair shops
- Mining
- Iron worker
- Pipe welding

What You Learn
- Welding theory and practice
- 3D modelling
- Metallurgy and rigging
- Layout and fitting
- Manufacturing quality control and assurance
- Trade calculations

Program Contact
Shawn Alyman, Professor
705.474.7600 ext. 5626
shawn.alyman@canadorecollege.ca

Applied Research Project
Welding students were involved in the redesign, Finite Element Analysis, 3D modeling, fabrication and welding of a new aluminum hovercraft frame to replace the original plywood frame for Air Rider, a company based out of Parry Sound.
Trades Fundamentals
28 Weeks - Ontario College Certificate

Your Experience: Train hands-on with industry standard tools.

Build a solid foundation in the trades. Explore which trade is right for you while you gain the hands-on knowledge and skills required to continue your education in a Trades program or to start your future career in this diverse sector.

What You Learn
- Motorcycle and recreational service
- Introduction to plumbing, electrical techniques and carpentry
- Welding basics
- AutoCAD
- Machining basics
- Vehicle lube and maintenance techniques

Kody Craig Budge
Certified Welder-Fitter Technician
Mechanical Technician – Welder-Fitter Graduate 2013

“I got hired right out of college by the global mining company, Rotacan. They took me on as a junior welder as well as trained me on ABB robotic welders. It’s been a constant learning process. Canadore College gives you the skills and knowledge to be able to transition, adapt and advance.”
Canada is experiencing a critical shortage of skilled trades workers. Employers need highly skilled workers now, and graduates from trades apprenticeship programs are in demand. A career in trades can offer you a promising future in a secure, well-paid and challenging occupation.

**Skills Apprenticeship**

**Automotive Service Technician**

3 levels

Gain the skills and training needed to challenge the Certificate of Qualification exam. Earn while you learn. This program is run in a day release format to allow the apprentice to continue to work in the trade while learning one day per week. This training is a stepping stone to several other trades.

**Your Future Career**
- Automotive services technician
- Service manager
- Service writer

**What You Learn**
- Engine systems
- Electrical, electronics and emission control systems
- Drive train systems
- Suspension, steering and brake systems

**Child Development Practitioner**

Earn while you learn with this flexible delivery option. There is an increasing demand for child development practitioners. The majority of the training takes place while working on the job as a paid apprentice, and the formal education portion can be taken via distance education. This program can be completed in as little as three years.

**Your Future Career**
- Childcare centres or nursery schools
- Kindergarten programs
- Resource and learning access programs
- Specialty early learning schools

**What You Learn**
- Child development
- Infant, toddler, pre-school and school-aged curricula
- Interpersonal communications
- Health, safety and nutrition
- Administration

You must be a signed apprentice with the Ontario College of Trades to be eligible to take these programs.

**ONLINE:** Go to [collegeoftrades.ca](http://collegeoftrades.ca) or [tcu.gov.on.ca/eng/employmentontario/training](http://tcu.gov.on.ca/eng/employmentontario/training)

**PHONE:** 1.800.387.5656

Speak with your local Ministry of Advanced Education and Skills Development – Apprenticeship Branch (Employment Ontario)

Canadore offers the in-school portion of the training for the following apprenticeships.

Canadore Apprenticeship Contact

Kathie Nesseth

📞 705.474.7600 ext. 5628

✉️ apprenticeship@canadorecollege.ca
**Cook Apprenticeship**  2 levels

Earn while you learn! Receive valuable in-school training while you work in a paid culinary position. The culinary industry is growing and there is a shortage of professionally-trained cooks and chefs.

**Your Future Career**
- Chef de partie
- First cook
- Sous chef
- Chef de cuisine

**What You Learn**
- Baking and advanced pastry arts
- Food, beverage and kitchen management
- Restaurant food production
- Food preparation and culinary skills
- Wines

---

**General Carpenter**  3 levels

Receive specialized training in one of the largest training facilities in Ontario. Apprentices will be trained to use hand and power tools while working with different wood types and products and a variety of construction materials. You will learn the latest installation methods along with the best practices and workplace safety relevant in today’s construction industry.

**Your Future Career**
- General contracting
- Construction companies
- Residential and ICI sectors
- Furniture and cabinet manufacturers

**What You Learn**
- Advanced wood joinery, building processes and fastening systems
- Forming, framing, and stair construction
- Installation of windows, doors, and cabinets
- Interior and exterior finishes
- Plan reading, estimating, construction surveying and project layout

---

**General Machinist**  3 levels

Learn all aspects of the operation of numerous industry standard machines including drill presses, surface and cylindrical grinders, CNC mill and lathe, and horizontal and vertical band saws. Earn while you learn! The day release delivery format allows students to learn while continuing to work in the trade.

**Your Future Career**
- Automotive
- Mining
- Aircraft manufacturing

**What You Learn**
- Operation of vertical and horizontal milling machines
- Layout equipment and procedures
- Measuring equipment and inspection techniques
- Basic metallurgy and heat treatment
- Safe working practices
Skills Apprenticeship

Canadore offers the in-school portion of the training for the following apprenticeships

Information Technology Technician

1.5 years to complete

Complete the theory portion of this program entirely online combined with hands-on training that is completed on the job. There are 11 online courses totalling 360 hours. Courses are taken over a one and a half year time frame with approximately six hours of theory learning per week.

Your Future Career
Information technology and network support for:
- IT firms
- Public corporations
- Private corporations

What You Learn
- Operating systems
- Microcomputer applications
- Basic electrical and electronics
- Desktop and mobile platforms
- Basic network systems

Marine and Small Engine Technician

3 levels

Become a Small Engine or Marine Engine Technician and gain the skills to challenge the Certificate of Qualification exam. All students in class are working in the trade, providing an excellent opportunity for networking. The program can act as a great stepping stone to several other trades.

Your Future Career
- Small/marine engine technician
- Service manager
- Service writer
- Marina operator (level 3)

What You Learn
- Electrical and electronic systems
- Fuel systems, engine systems
- Braking, transmission and auxiliary power systems
- Propulsion systems (level 3)
- Electronic fuel management systems (level 3)
- Handling, rigging, running and storing auxiliary systems (level 3)

Metal Fabricator

3 levels

The in-school training at Canadore will prepare you to be successful in industry and develop leadership skills for supervision roles. The program focuses primarily on welding, layout and fitting techniques used in the welding and fabrication industry. Earn while you learn. This is a day release program. Students can work and earn an income while in class.

Your Future Career
- Welder fitter or iron worker
- Supervisor
- Quality control or NDT (non destructive testing inspector, CWB inspector, Instructor)
- CNC operator

What You Learn
- CNC shape cutting
- Fabrication
- Oxy fuel cutting and plasma cutting
- Air carbon arc gouging
- SMAW, GMAW, FCAW/MCAW, TIG
Motorcycle Technician **NEW** 2 levels

Become a motorcycle technician and gain the skills required for this exciting industry. In Canada, there is a shortage of certified technicians for this in-demand field. Train hands-on and learn the industry requirements of the trade.

**Your Future Career**
- Motorcycle technician
- Service manager
- Service writer
- Parts person
- Sales person

**What You Learn**
- Electrical and electronic systems
- Fuel systems
- Engine systems
- Powertrains
- Motorcycle chassis

---

Railway Car Technician 3 levels

Canadore College is the only college in the province of Ontario to offer this program. Canadore College was integral in the development of this program in conjunction with stakeholders and leaders within this industry.

**Your Future Career**
- Service/parts manager
- Equipment purchaser
- Operations manager
- Section foreperson

**What You Learn**
- Personal and workplace safety
- Invasive and non-invasive diagnostic techniques
- Related computer operations for diagnostic purposes
- Interpreting government regulations
- Job estimating and scheduling

---

Truck and Coach Technician 3 levels

Train in a professional atmosphere with other students working in the trade. Canadore College has close working relationships within the trucking industry and has strong support from its local repair facilities. The College was integral in the development of this program in conjunction with other colleges and primary manufacturers and transportation leaders within this industry.

**Your Future Career**
- Service/parts manager
- Equipment purchaser
- Maintenance director
- Shop foreperson

**What You Learn**
- Invasive and non-invasive diagnostic techniques
- Related computer operations for diagnostic purposes
- Interpreting government regulations
- Job estimating and scheduling
