Sincerely,

Kim LaPierre  
Team Lead, Student Success Services  
705.474.7600, ext 5905

## Our Team and How They Can Help

**Our Technologists** offer informative hand-outs related to study skills, organization, time management, note taking tips and test taking strategies. The right technology used correctly can change everything! Assistive Technologies consists of any device that allows an individual to accomplish a task by minimizing the affects of a disability. In order to access these services a student must first meet with a Student Success Navigator and provide a valid confirmation of a learning disability.

**Our Student Life Navigator** meets with students registering with our department to discuss their questions and direct them to the Student Success Navigators who will assist them throughout their time at Canadore. Support will be provided with respect to problem solving and resolution of challenging situations.

**Our Mental Health and Wellness Navigator** understands asking for help can be difficult. College years can be times of growth and learning, life challenges and significant stress. Sometimes you may be unaware of how large the issue is, what resources are available to help and how to work through current situations blocking you from your full potential. If you are feeling lost, facing a problem you don't know how to handle, or would just like to talk to someone, we're here to help by providing support, referrals and resources.

**Our Learning Navigator** supports students with learning disabilities and provides learning strategies for success. Students receive individualized Student Success Profiles which outline classroom and exam accommodations and discuss time management and organizational strategies to support your success.

**Our Career Guidance Navigator** provides ongoing support and services to students and Crown Ward learners throughout their college career. Resume and cover letter assistance, job acceptance letters and interview preparation strategies are a few of the services offered in this department. Additionally, career guidance is available for students uncertain about their career aspirations.
