| Pre-k Subcommittee update: The establishment of a<br>pre-k class would be very difficult to implement in 2022-<br>23 school year, given current space requirements. The<br>EMSB has indicated that the likelihood of maintaining<br>the modulars beyond the 2022-23 school year is low | A better understanding of community need is<br>necessary. ### Informing the School Community

We informed the school parent body through email communications the GB meeting dates and topics to be discussed, as well as the annual meeting & elections.

Lots of open discussions were held around the potential (then the confirmed) addition of pre-k at Edinburgh. Concerns were shared that Edinburgh will have even less space for specialty classrooms considering the addition of a new class (pre-k) and the impending removal of the modulars. This situation should continue to be monitored.

#### **Recommendations**

Continue to host GB meetings virtually as much as possible to facilitate participation during the Covid pandemic. However, a greater effort should be made to hold in-person meetings at key points in time (first GB meeting of the year, holiday GB and year-end\budget review).

Closely monitor the classroom space at Edinburgh and assure a smooth transition of the pre-k curriculum along with the impending removal of the modulars.

Assure the school has a stronger social media presence and a better/accurate website, top 'ask' for the new principal. Marketing the amazing work/activities being done at Edinburgh is critical to the school's success; maintaining and growing enrollment is a primary concern for the GB.

#### Chairperson's message

Edinburgh is an amazing school with an extremely supportive community around it. With Mr. Sifoni now in as principal, great things should be expected. Continuing to focus on promoting the school while maintaining a close eye on classroom space is going to be the primary challenge for the 2022-23 school year.
