STUDENT RECOGNITION SYSTEM

Dear Parents,

We are pleased to announce the introduction of our Student Recognition System at East Hill Elementary School.

We are very proud of the continuous efforts and perseverance shown by our students. Therefore, to recognize and reward their hard work, we have decided, along with the Student Life Committee, to put in place a system to highlight students' achievements in the following categories:

-Respect

This category is meant for students who display such qualities as empathy, politeness, and compassion. The recipient of this award should be kind, courteous and constantly showing consideration for others.

-Hard Work

This category is meant for students who have worked diligently throughout the course of the term. The recipient of this award should be someone who constantly gives their all.

-Team Work

This category is meant for students who display a spirit of collaboration and is always willing to help. The recipient of this award should typically be someone who puts the needs of the group and others before theirs.

-Citizenship

This category is meant for students who respect the rules and procedures of the school. In other words, the recipient of this award is the model student.

Each term, four students per homeroom class will be selected (1 student for each category).

Please note that the Term 1 certificates will be distributed to the selected students in January 2024.

Kind Regards,

East Hill Administration
