These websites (English and French versions) are from Concordia University for early literacy. ABRACADABRA (A Balanced Reading Approach for Children Always Designed to Achieve Best Results for All) is a highly interactive, early literacy web-based tool that supports beginning readers through dozens of engaging activities and digital stories.

## APPS:

### Phonemic Awareness

#### PHONEMIC AWARENESS BUBBLES 4+

Pre-Phonics Learning Games PRESCHOOL UNIVERSITY

This app helps your child develop their ability to listen for and discern sounds at the beginning of words.

#### Sound Beginnings

#### Children Master Blending, Segmenting and Reading 3-Letter Short Vowel Words

This game app teaches your child to listen for and discriminate the beginning, middle and ending sounds of words. Has 12 different and fun game combinations to challenge your child and help them develop strong phonemic awareness. This is the most advanced letter sounds app in the Preschool University letter series. It includes games for beginners and advanced learners.

# Apps to Learn Letter Sounds

## Phonics Game Apps Help Your Child Master the Sounds of Letters

### ABC MAGIC PHONICS 1

Children will learn the sounds of the English Alphabet. This foundational app will help your child learn the sounds of the letters of the alphabet, which are necessary for reading. Learning the sounds of the letters gives your child the tools for reading and helps them become better readers later in development. Each letter is matched with a phonetic photo image to help your child develop the neuro connection of the sound to the image.

### ABC MAGIC PHONICS 2

Builds on the skills learned in ABC MAGIC PHONICS 1. Children learn to discriminate which letter sound combinations match carefully chosen phonetic pictures and in the process, develop strong phonemic awareness.

### ABC MAGIC PHONICS 3 Letter Sound Matching

This app helps your child master the letter-sound connection. It uses four different games to help your child develop and reinforce their knowledge of the sound each letter makes. Each game involves seeing letters and hearing sounds. Your child learns to choose which sounds do or do not match the letter(s) being shown.

### ABC MAGIC PHONICS 4

This app tests your child and helps to master the letter/sound connection. It features four new and fun games that help your child learn quickly and reinforces their knowledge of the sound each letter makes. This app challenges your child by not having the letters say their sounds when touched.

## **ABC MAGIC PHONICS 5**

### **Connecting Sounds, Letters and Pictures**

This stand-alone app includes 10 lessons that help your child practice all the key areas of the alphabetic principle. Letter sounds, letter symbols and letter usage are all used in various combinations to provide your child an in-depth experience and practice of the functions and usage of letters.

## **ABC MAGIC PHONICS 6**

### **Memory Match**

This stand-alone app is designed for advanced beginners. It includes 11 game variations that help your child practice all the key areas of the alphabetic principle. Letter sounds, letter symbols and letter usage are all used in various combinations to provide your child an in-depth experience of the function and usage of letters.
