EARTH DAY ACTIVITY

Dear Parents,

As you may be aware, Thursday, April 22, is Earth Day. Please note that in order to commemorate the occasion, our students will be participating in an Earth Day activity.

Our students will have the opportunity to plant and take care of a bulb in their classroom that will hopefully grow into a seedling. Subsequently, the students will have the opportunity to plant their seedling in a designated location on school grounds.

The students will also be sensitized to the importance of preserving the environment and how they can contribute positively in this pursuit.

Kind Regards,

S.Rebelo
Principal
Gerald McShane Elementary School
