## INFORMED PARENTAL CONSENT FOR USE OF APP OR ONLINE SERVICE

Dear Parent/Guardian,

During the 2023-2024 academic year, your child's class will use educational technology app(s) or online service(s) as learning tools.

We wish to inform you that certain information may be stored on non-EMSB servers that reside outside of Quebec and Canada, but that we have reviewed the privacy policies of these app(s)/service(s) and are satisfied that they protect the privacy of your child and do not share information with other third-party services.

We also wish to inform you that your child's teacher will supervise his or her use of these tools so that he or she may benefit from the learning opportunities in a safe manner. We are committed to fostering healthy Digital Citizenship practices in our students.

With evolving technology and progressive apps/websites emerging, we may send you a revised list requesting permission from parents/guardians again during the year.

More information to come during the school year with regards to specific apps and online services.

Sincerely,

Ms. L. Buscemi  
Principal
