---

May 4, 2020

Dear Parents,

As you may be aware, schools will be resuming instructional activities in the near future. At the high school level, instructional activities are set to resume as of the week of May 11<sup>th</sup>, 2020. Students will not be physically reporting to school, instruction will be done through distance education.

Unlike the previous phases where completing the work was optional, students are expected to complete the work and assignments given to them by their teachers. It is important to note, that the work and assignments given over the next few weeks until the conclusion of the school year will greatly impact the professional judgement of the teacher when determining whether a student has acquired the necessary competencies to be promoted to the next level. We especially advise students who had poor results in the first two terms to take advantage of this opportunity to consolidate their knowledge and to demonstrate that they have acquired the necessary competencies and skills to be promoted.

The modalities of how pedagogical activities will be conducted in this next phase will be communicated to you shortly. In the meanwhile, our teachers will continue to provide educational support and will check in with their students on a weekly basis as they have done over the last four weeks.

You will also receive shortly instructions as well as a schedule for pick-up of materials from student lockers.

Kind Regards,

Steven Rebelo  
Principal  
Lester B. Pearson High School
