STUDENT SUPPORT SERVICES

GUIDANCE COUNSELLORS

Our Guidance Counsellors assist students in making choices about their future by informing students about C.E.G.E.P., Vocational, Professional Programs and career possibilities. They play a key role in crisis intervention and support students undergoing a difficult or traumatic period.

NURSE / HEALTH COUNSELLOR

The student Health Counsellor's main role is to promote health and wellness amongst our students. They offer several workshops to our students on various health issues pertinent to teenage students. If need be, they will also work with students on an individual basis.

SPIRITUAL & COMMUNITY INVOLVEMENT ANIMATOR

The Spiritual & Community Animator offers a variety of humanitarian, spiritual and interfaith activities intended to enhance the human and spiritual growth of our students.

STUDENT SUPERVISOR

Our student supervisor monitors the behaviour of our students and follows up on such things as absences and lates. The Student Supervisor is directly involved with the organization of student activities.

LIBRARIAN & LEARNING COMMONS FACILITATOR

The library and learning commons area is intended to be a resource area for the whole school. Students are welcome to study, read, use the computers or engage in hands-on activities in our makerspace area.

SOCIAL WORKER

The role of the Social Worker is primarily to provide counselling to students who are experiencing difficulties at home or at school.

SPECIAL EDUCATION TECHNICIANS & CHILD CARE ATTENDANTS

Our technicians help students with particular needs by assisting them academically and socially whenever the need arises. Our child care workers work with specific students whose needs require individual attention.

SCIENCE LABORATORY TECHNICIANS

Our technicians assist both students and teachers with experiments conducted in our state of the art laboratories.

TUTORIALS

Tutorials are offered by teachers in every subject area.
Tutorials vary from morning sessions to lunch and after-school sessions.

PROGRAMS OF STUDY

Lester B. Pearson High School is a true community school offering a variety of programs to meet the needs of the individual student. Each individual can learn in a secure and purposeful environment offered at LBP. Through our English Core Program, Enriched, Français Langue Maternelle, Resource, and Sport-Études Programs, our students are educated, socialized and qualified to continue their studies or enter the work force. Parents and staff work together to address these needs through mutual cooperation.

ENGLISH CORE PROGRAM

The majority of students at Lester B. Pearson are enrolled in this program, where they follow the standard curriculum set by the Ministry of Education. Should an individual student excel in an area, the student would be encouraged to follow an enriched program.

ENRICHED PROGRAM

Students enrolled in our English Core Program who excel in a particular area have the opportunity to follow several enriched programs such as:
Advanced Placement Courses

FRANÇAIS, PROGRAMME ENRICHI

Where students follow a course of study in French similar to what is offered in the French schools and have the opportunity to earn advanced level credit in French.

ENRICHED ENGLISH

Where students are encouraged to explore various literary styles and be challenged to reach their full creative potentiel.

HONOURS MATH

Where students can fulfill the Math & Science prerequisites for most Science programs at the C.E.G.E.P. level. Those students follow an accelerated Math program to enable them to take pre-calculus in Secondary 5.

RESOURCE PROGRAM

Our students with Special Needs are provided with a genuine sense of self-confidence through the efforts of a caring and committed staff. The Individual Education Plan and the adapted MEES programs encourage students to succeed both academically and socially while leading them to high school certification. The Lester B. Pearson Cycle 1 Allongé Program is a 1-year program which precedes the Resource Grade 7 Program. This is a modified program where students review basic elementary level concepts and skills in order to prepare them to follow the Resource Grade 7 Program in the following year.

SPORT-ÉTUDES PROGRAM

PROGRAM GOALS

To provide student-athletes with a supportive environment that will enable them to succeed academically while pursuing their athletic endeavors. The program is designed for student-athletes who are able to maintain both high academic standards and a rigorous training schedule.

WHY ENROLL IN THE SPORT-ÉTUDES PROGRAM?

Reduce the stress created by both athletic and academic demands.

Allow student-athletes to successfully meet all of the requirements for Secondary School Certification.

The program provides student-athletes the opportunity to accumulate all necessary prerequisites for postsecondary education programs.

Develop independant, mature and responsable student-athletes.

GENERAL REQUIREMENTS OF THE PROGRAM

Maintain a minimum overall average of 75%.

Display a behaviour that is in line with the school's code of conduct.

Maintain the appropriate classification with their respective sport federation.

Baseline Concussion Testing.

ACADEMIC SUPPORT SERVICES

Tutorials and recuperation with our professional teaching staff on a daily basis. Supervised with teachers to assist with the completion of schoolwork. Individualized flexible deadlines for the completion and submission of evaluations.

GENERAL SUPPORT STRUCTURE

Program Coordinator constantly monitors the academic and athletic progress of our student-athletes.
Ongoing communication with parents of students experiencing difficulties.

ACADEMIC PATHWAY

All students admitted to the program must possess the certification of eligibility for English education.
100% of the Québec Education Program taught in 75% of the school day!
100% success rate in both our Accelerated Math and Science Path as well as our Regular Academic Path.

ATHLETIC SUPPORT SERVICES

Weight training.
Physiotherapy.
Nutrition and sports medecine sessions.
Sports psychologist.
Various guest speakers on issues related to athletics.
