Moderation Defined - School marks obtained by each group of students are compared to the marks they obtained on the uniform examination. Using a statistical calculation, the school marks of each group are adjusted **by the ministry** to correspond to the marks obtained by this group on the uniform examination. The calculation takes into account the two following factors: the mean and the standard deviation (the distribution of marks around the mean).

● **Late work policy :**

- Students are allowed to submit the assignment the next day without penalty.
- After one day, 5% is deducted for each additional day it is late
- Once the assignment in question is handed back to students, no late assignments will be accepted and will receive a mark of Zero (0).
