Sub-Committees and their mandates

There were no sub-committees needed this school year.

Informing the School Community

The school community is always informed electronically via school messenger (letters, calendars, etc.), emails, Google Classroom, the school website, and when necessary, by paper, when forms or permission slips need to be signed. The school encourages paperless as much as possible. Furthermore, the school community, as well as, the outside community is informed via various social media platforms. Marketing is done via banners outside the school for all to see, as the school is located on a busy street and also on social media.

Recommendations

Our recommendations would be to have both schoolyards renovated with playgrounds, as well as, to renovate the library. We can always increase our technology concentration initiative featuring S.T.E.A.M. and also, our sports programs. This would possibly attract more students to the school.

Chairperson's message

Although, the school year had some difficult times due to the pandemic, I am glad that this year's activities have come back to normal. The students needed this and you can see the change from last year. They are happy and joyful! Thank you to Ms. Ancona, the teachers, and staff for making this happen while the circumstances were ever-changing!

Last but not least, I would like to thank my fellow GB members for your support, time, and most importantly, working together to make a difference!

Best Regards,		
Elvira Corso
