

Virtual Learning 2020-2021

October 5th, 2020

Dear parents/ guardians,

It is with great pride that we write to you as the new administrative team of the EMSB Virtual Learning setting. We are confident that our experience in varied EMSB schools combined with our knowledge of innovative technology integration will help your children navigate through these challenging times. We are passionate, dedicated and energetic professionals that are committed to the success of your children.

This has clearly been a difficult time for all of us, but surely more worrisome for you. The English Montreal School Board, including all staff members, continues to do everything in its power to ensure an ongoing transition for your child. Though you've already encountered many of the challenges of distance learning, we hope you can also see the potential that lies ahead.

Our shared vision for Virtual Learning is to create a community of learners focused on engagement and connection. Our teaching staff has been hard at work ensuring your children achieve the same curriculum objectives as all students in EMSB schools. We also need your support to help us create an amazing, unique, challenging and unparalleled virtual experience for your children.

In an effort to help you stay connected and up to date on the current events, we invite you to follow us on our various social media platforms.

virtualschool@emsb.qc.ca

Your continued patience throughout this process is greatly appreciated.

Yours in virtual education,

Christy Tannous
Principal

Réal Heppelle
Vice-Principal
