

# Westmount High School

Established in 1873

A College Board Advanced Placement School

## STANDARDS & PROCEDURES

<b>Department or Subject:</b>	Robotics Secondary 3
-------------------------------	----------------------

Term 1 (20%)		
Competencies Targeted	Evaluation Methods	General Timeline
<p><b>Competency 1:</b> Develop the essential knowledge of engineering principals in robotics applications; to understand technical objects, to analyze technological systems and create solutions to complex technological challenges.</p> <p><b>Competency 2 (Practical)</b> Demonstrate the engineering skills required to design, manufacture and program technical objects, mechanisms, and robotic systems; and apply those solutions to real world technological problems.</p>	<p>Evaluations may include some <b>or</b> most of the following:</p> <p><b>Participation:</b> includes personal involvement with all aspects of the classes, behaviour, verbal responses, and completion of all in-class activities.</p> <p><b>Robotics Portfolio:</b> students are expected to complete all in-class worksheets and assignments and organize them in their binders (portfolio) to be evaluated at the end of each term.</p> <p><b>Computer and Robotics Work:</b> students are expected to use the computer and robotics technology safely and responsibly.</p> <p><b>Tool Use, Machines and Safety Protocols:</b> students are expected to use all tools and machines properly and to exhibit behavior that reflects the established safety protocols in the robotics lab environment.</p> <p><b>Homework:</b> not all work will be done or completed in class. It is expected that you do some work at home and meet the due date(s) required.</p> <p><b>Presentations or Projects:</b> varied</p> <p><b>Group Presentations/Assignments:</b> varied</p>	<p>Assessments &amp; evaluations are assigned and compiled throughout the term. There are no mid-term or final exams. There will be an end of year robotics portfolio evaluation.</p>
<p><b>Communication to Students and Parents</b></p> <p>Teachers may communicate with parents:</p> <ul style="list-style-type: none"> <li>• Google Classroom</li> <li>• Agenda notes</li> <li>• Report cards</li> <li>• Emails</li> <li>• Phone Calls</li> </ul>	<p><b>Other Pertinent Information [Topics Examined]</b></p> <ul style="list-style-type: none"> <li>• Safety Protocols in Robotic Lab Settings</li> <li>• Algorithmic Thinking</li> <li>• Critical Thinking and Problem Solving</li> <li>• Principals of Design Thinking</li> <li>• Engineering Design Process</li> <li>• Technical Objects</li> <li>• Solution-Based Collaborative Thinking</li> <li>• FIRST Philosophy</li> <li>• 3D Design and Printing Models with TinkerCad</li> <li>• FIRST Tech Challenge Competition Kick-Off (Sept. 10<sup>th</sup>, 2022)</li> </ul>	

Term 2 (20%)		
<i>Competencies Targeted</i>	<i>Evaluation Methods</i>	<i>General Timeline</i>
<p><b>Competency 1:</b> Develop the essential knowledge of engineering principals in robotics applications; to understand technical objects, to analyze technological systems and create solutions to complex technological challenges.</p> <p><b>Competency 2 (Practical)</b> Demonstrate the engineering skills required to design, manufacture and program technical objects, mechanisms, and robotic systems; and apply those solutions to real world technological problems.</p>	<p>Evaluations may include some or most of the following:</p> <p><b>Participation:</b> includes personal involvement with all aspects of the classes, behaviour, verbal responses, and completion of all in-class activities.</p> <p><b>Robotics Portfolio:</b> students are expected to complete all in-class worksheets and assignments and organize them in their binders (portfolio) to be evaluated at the end of each term.</p> <p><b>Computer and Robotics Work:</b> students are expected to use the computer and robotics technology safely and responsibly.</p> <p><b>Tool Use, Machines and Safety Protocols:</b> students are expected to use all tools and machines properly and to exhibit behavior that reflects the established safety protocols in the robotics lab environment.</p> <p><b>Homework:</b> not all work will be done or completed in class. <i>Communication to Students and Parents</i>	<i>Other Pertinent Information [Topics Examined]</i>	
<p>Teachers may communicate with parents:</p> <ul style="list-style-type: none"> <li>• Google Classroom</li> <li>• Agenda notes</li> <li>• Report cards</li> <li>• Emails</li> <li>• Phone Calls</li> </ul>	<ul style="list-style-type: none"> <li>• Smart Cities and Nations</li> <li>• Artificial Intelligence</li> <li>• Programming Principles: <ul style="list-style-type: none"> <li>• Conditional Statements</li> <li>• Design and Program Flow</li> <li>• Graphical Interface</li> <li>• Functions</li> <li>• Logic Statements</li> <li>• Loops and Variables</li> <li>• Metrics</li> </ul> </li> <li>• 3D Design and Printing Models with TinkerCad</li> </ul>	

<b>Term 3 (60%)</b>
---------------------

<b>Competencies Targeted</b>	<b>Evaluation Methods</b>	<b>General Timeline</b>
<p><b>Competency 1:</b> Develop the essential knowledge of engineering principals in robotics applications; to understand technical objects, to analyze technological systems and create solutions to complex technological challenges.</p> <p><b>Competency 2 (Practical)</b> Demonstrate the engineering skills required to design, manufacture and program technical objects, mechanisms, and robotic systems; and apply those solutions to real world technological problems.</p>	<p>Evaluations may include some or most of the following:</p> <p><b>Participation:</b> includes personal involvement with all aspects of the classes, behaviour, verbal responses, and completion of all in-class activities.</p> <p><b>Robotics Portfolio:</b> students are expected to complete all in-class worksheets and assignments and organize them in their binders (portfolio) to be evaluated at the end of each term.</p> <p><b>Computer and Robotics Work:</b> students are expected to use the computer and robotics technology safely and responsibly.</p> <p><b>Tool Use, Machines and Safety Protocols:</b> students are expected to use all tools and machines properly and to exhibit behavior that reflects the established safety protocols in the robotics lab environment.</p> <p><b>Homework:</b> not all work will be done or completed in class. It is expected that you do some work at home and meet the due date(s) required.</p> <p><b>Presentations or Projects:</b> varied <b>Group Presentations/Assignments:</b> varied</p>	<p>Assessments &amp; evaluations are assigned and compiled throughout the term. There are no mid-term or final exams. There will be an end of year robotics portfolio evaluation.</p>
<b>Communication to Students and Parents</b>	<b>End of Year Evaluation</b>	<b>Other Pertinent Information [Topics Examined]</b>
<p>Teachers may communicate with parents:</p> <ul style="list-style-type: none"> <li>• Google Classroom</li> <li>• Agenda notes</li> <li>• Report cards</li> <li>• Emails</li> <li>• Phone Calls</li> </ul>	<p>No formal end of year evaluation. However, there will be an end of year assessment for the students robotics portfolio</p>	<ul style="list-style-type: none"> <li>• Robot Systems &amp; Construction</li> <li>• Motion Transmission Systems</li> <li>• Motion Transformation Systems</li> <li>• Electrical Systems &amp; Circuits</li> <li>• FIRST Robotics Competition</li> <li>• 3D Design and Printing Models with OnShape <ul style="list-style-type: none"> <li>▪ CAD FTC Bots</li> <li>▪ CAD FRC BOT</li> </ul> </li> <li>• FRC Kick-Off (January 7<sup>th</sup>, 2023)</li> </ul>

**Additional Information / Specifications (e.g., materials required):**

1" Binder  
Loose-leaf and graph paper  
Pencil Case (pencils, pens, etc)  
Compass Set  
Ruler
