# Every ticket matters, because every ticket **can save a life.**

This year, our focus is to understand how women's hearts and brains are different ensuring women are equitably represented in research. As it stands, women are under-researched and over-dying. With your help, we're taking steps to end this inequity.

## Women are under-researched and over-dying.

**1 in 4** women die of heart disease and stroke.

Heart disease and stroke is the **#1 killer** of women in Canada.

Heart attack symptoms go unrecognized in **53%** of women.

Tests designed for men **don't work** as well for women.

**2/3** of all heart disease and stroke clinical research focuses on men.

### Do you know all the signs of heart attack?

Chest Discomfort

Nausea

Sweating

Shortness of Breath

Upper Body Discomfort

Light-headedness
