

Dr. Antony Liscio

With over five decades in dentistry and a proven leadership track record, I'm deeply committed to strengthening public protection by serving on Council. My current roles as a Council Member for District 9 and a Committee Member of ICR have deepened my understanding of regulatory responsibilities and the critical importance of arriving at decisions by reaching consensus among panel members.

My diverse background, including extensive board experience and cross-cultural practice among Indigenous communities, has opened my eyes to diversity, equity, and inclusion issues. I've learned the importance of active listening, openness, and action - aligning closely with the College's vision of fostering an inclusive Council culture.

Five years on the ICR committee have taught me to prioritize patient safety while balancing diverse perspectives. This experience underscores the importance of data-driven decision-making, risk mitigation, and considering complainants' viewpoints for fair, balanced regulatory responses.

Leadership roles, such as Chairman of Western Pacific Trust Company, have reinforced my understanding of fiduciary duties and the crucial need for confidentiality in sensitive matters. I'm dedicated to fostering collaboration among diverse stakeholders, leveraging communication skills honed through years of practice, teaching, and community engagement.

I am eager to continue sharing my expertise by serving on the Council representing District 9. In doing so, I am fully committed to upholding the highest ethical standards in our dental profession - ultimately ensuring the public's safety in alignment with the evolving needs and in today's society.
