

Dr. Eilyad Honarparvar

I am excited for the opportunity to serve on Council and contribute to the College's mission of protecting the public and regulating Ontario's dentistry profession with integrity and accountability. With my experience as an associate dentist working in diverse clinical environments and serving a broad spectrum of patients, I am committed to upholding the College's values of equity, diversity, and inclusion while fulfilling its mandate effectively.

My work with vulnerable populations has strengthened my dedication to ensuring that dental care is equitable and accessible for all. In addition, working within a large group dental practice has instilled a strong sense of collaboration, and I am committed to fostering a collegial atmosphere on Council.

Serving on the Discipline Committee has deepened my understanding of the RCDSO's core values of integrity, transparency, and public trust. My previous experience on the student council in dental school provided me with valuable skills in strategic thinking and the ability to offer broad perspectives on complex issues. I am also well-versed in fiduciary responsibilities and will ensure that Council decisions prioritize the public interest while safeguarding confidential information.

I believe my values, knowledge, skills, and commitment to equity and inclusion make me a strong candidate for Council. I am dedicated to supporting the College's mission and ensuring that we govern the profession responsibly and in the best interest of the public.
