

Dr. Robyn Somerville

Please allow me to express my dedication currently and continued to the Royal College of Dental Surgeons of Ontario, in the interest of protecting the public's right to safe and quality healthcare services. I have been committed to public services for most of my working life, from being raised by a Registered Nurse and Canadian Ski Patroller, to becoming involved in customer care in the serving industry as a youth, to the Canadian Ski Instructor's Alliance teaching safe skiing and protecting the public in an active sport, to participating and being a leader on Parent Council committees in our local school system and to support youth, sport, robotics and music opportunities for all in our growing community. With over two decades now as a dentist serving and caring for my community and my team members, along with remote northern Ontario community dentistry several years ago, I have a dedication to health care for the public in less urban settings and making sure safe, equally accessible and outstanding dental care is available to everyone. I have already enjoyed the privilege of serving one term on the RCDSO council, and I am eager to continue to grow and improve in my contributions to protect the public and ensure confidence in the dental profession across all of Ontario for many years to come.

Thank you for your consideration on this opportunity.
