## Library Resources

Most books listed under the Textbooks tab are available at the U of T Dentistry Library. Some of these are on course reserve (and may only be borrowed for a very limited period). Others may be available for a longer loan period (up to two weeks, with the possibility of renewal). All books which the Library owns are available for review while visiting the library personally. A binder with hard copy versions of all the PEAK articles is available for reading on-site at the Library as well. For more information, you may either contact the library directly or visit the library website and type in the title of the text under "Start Your Search". If a book is available for a two week loan it will be marked as "stacks." If not, it would be designated as "course reserves".
