Schneider Drivers Help the Company Hit a Triple in Quest for Quality Awards

Schneider, one of the nation's largest truckload carriers, recently won *Logistics Management* magazine's Quest for Quality awards in three categories, with the company's Team [Expedited Services](#) taking the top spot in the Truckload Expedited Motor Carriers Category. Schneider was recognized with an award in the [Truckload Dry Freight](#) category. Schneider [Intermodal Services](#) received an award in the Intermodal Marketing Companies category.

The Quest for Quality Awards are the gold standard for customer satisfaction and performance excellence for carriers, ports and logistics providers worldwide. Winners are selected based on providing excellent on-time service, among other criteria.

"When we receive Quest for Quality Awards, which directly reflect shippers' service feedback, it's a high compliment to every Schneider driver who keeps our customers' freight moving safely and on time," said Chris Lofgren, president and CEO of Schneider. "They are the real winners, providing the safe service that enables our company to grow and be recognized in such an incredible way."

Drivers running in the Team Expedited division should feel especially proud of the work they did to help Schneider land the category's top honor. Running with the country's largest team freight shippers, these drivers experience incredible benefits, including steady freight, new equipment and ample home time. Team drivers travel up to 6,000 miles per week, meaning bigger paychecks. Teams are among the highest compensated drivers at Schneider, with many earning over \$70,000 annually.

Such benefits have led Team drivers like Bob and Susan Tyler to call Schneider home. "If you are already a driver, Schneider is the best place to be and is truly the most driver-friendly company."
