**Schneider National Adding 60 Jobs in Pennsylvania
to Support New Oil Fracking Business**

***Company adding oilfield truck drivers; positions include \$5,000 sign-on bonus
and daily home time with predictable work schedules***

GREEN BAY, Wis. - (July 1, 2013) - Schneider National, Inc., a premier provider of truckload, logistics and intermodal services, announced today it is adding 60 [oilfield truck drivers](#) to support its energy business on the Marcellus Shale Formation. The company is offering a \$5,000 sign-on bonus to experienced drivers to join. No [oilfield driving](#) experience is required; Schneider will provide specific training.

Positions are based within a 75-mile radius of Mansfield, Pa., and Wilkes-Barre, Pa. Relocation assistance will be provided to interested candidates living outside of the hiring areas.

Schneider drivers working on the Marcellus Shale can expect to earn up to \$60,000 per year with a [paid orientation](#) and comprehensive [benefits package](#). Most drivers will also enjoy daily time at home while transporting materials into and out of the oilfields.

Although in business since 1935, Schneider developed an expertise in the delivery of products to and from fracking sites beginning in 2010 within its Bulk services division. Today the company has expansive Energy Transportation Services operations in Texas on the Eagle Ford Shale Formation and growing opportunities in Pennsylvania and the surrounding areas.

“Schneider is very excited to grow its presence in the area and provide stable, well-paying jobs,” said John Miller, general manager of Schneider’s Energy Transportation Services. “We have a large base of drivers doing similar work in Texas at fracking sites and the feedback is terrific. The compensation and amount of available work we provide has had a great impact on upgrading the lifestyles for residents in that area. We look forward to having the same impact in this area.”
